PULSE PEMF

INTRODUCTION

ABOUT PULSE PEMF

Pulse PEMF is a global leader in pulsed electromagnetic field (PEMF) wellness technology, designing advanced systems for humans and animals to support cellular energy, recovery, and holistic well-being. With over a decade of industry experience and used in 30+ countries, Pulse PEMF is committed to making cutting-edge, non-invasive therapies accessible and effective for practitioners and individuals alike.

WHY AFFILIATES & PARTNERS MATTER

Affiliates and referrals are a big part of our growth. By being interconnected in the wellness, biohacking, equine, and other industries, we are able to spread the word about the amazing power of PEMF technology. Your support helps us reach new audiences and create lasting relationships that help change people's lives.

PURPOSE OF THIS GUIDE

This guide is designed to give you a clear understanding of Pulse PEMF, how the technology works, and how you can play a vital role in our journey. We're excited to work together to continue sharing about the power of Pulse PEMF and build a network of PEMF-loving professionals, industry leaders, and more.

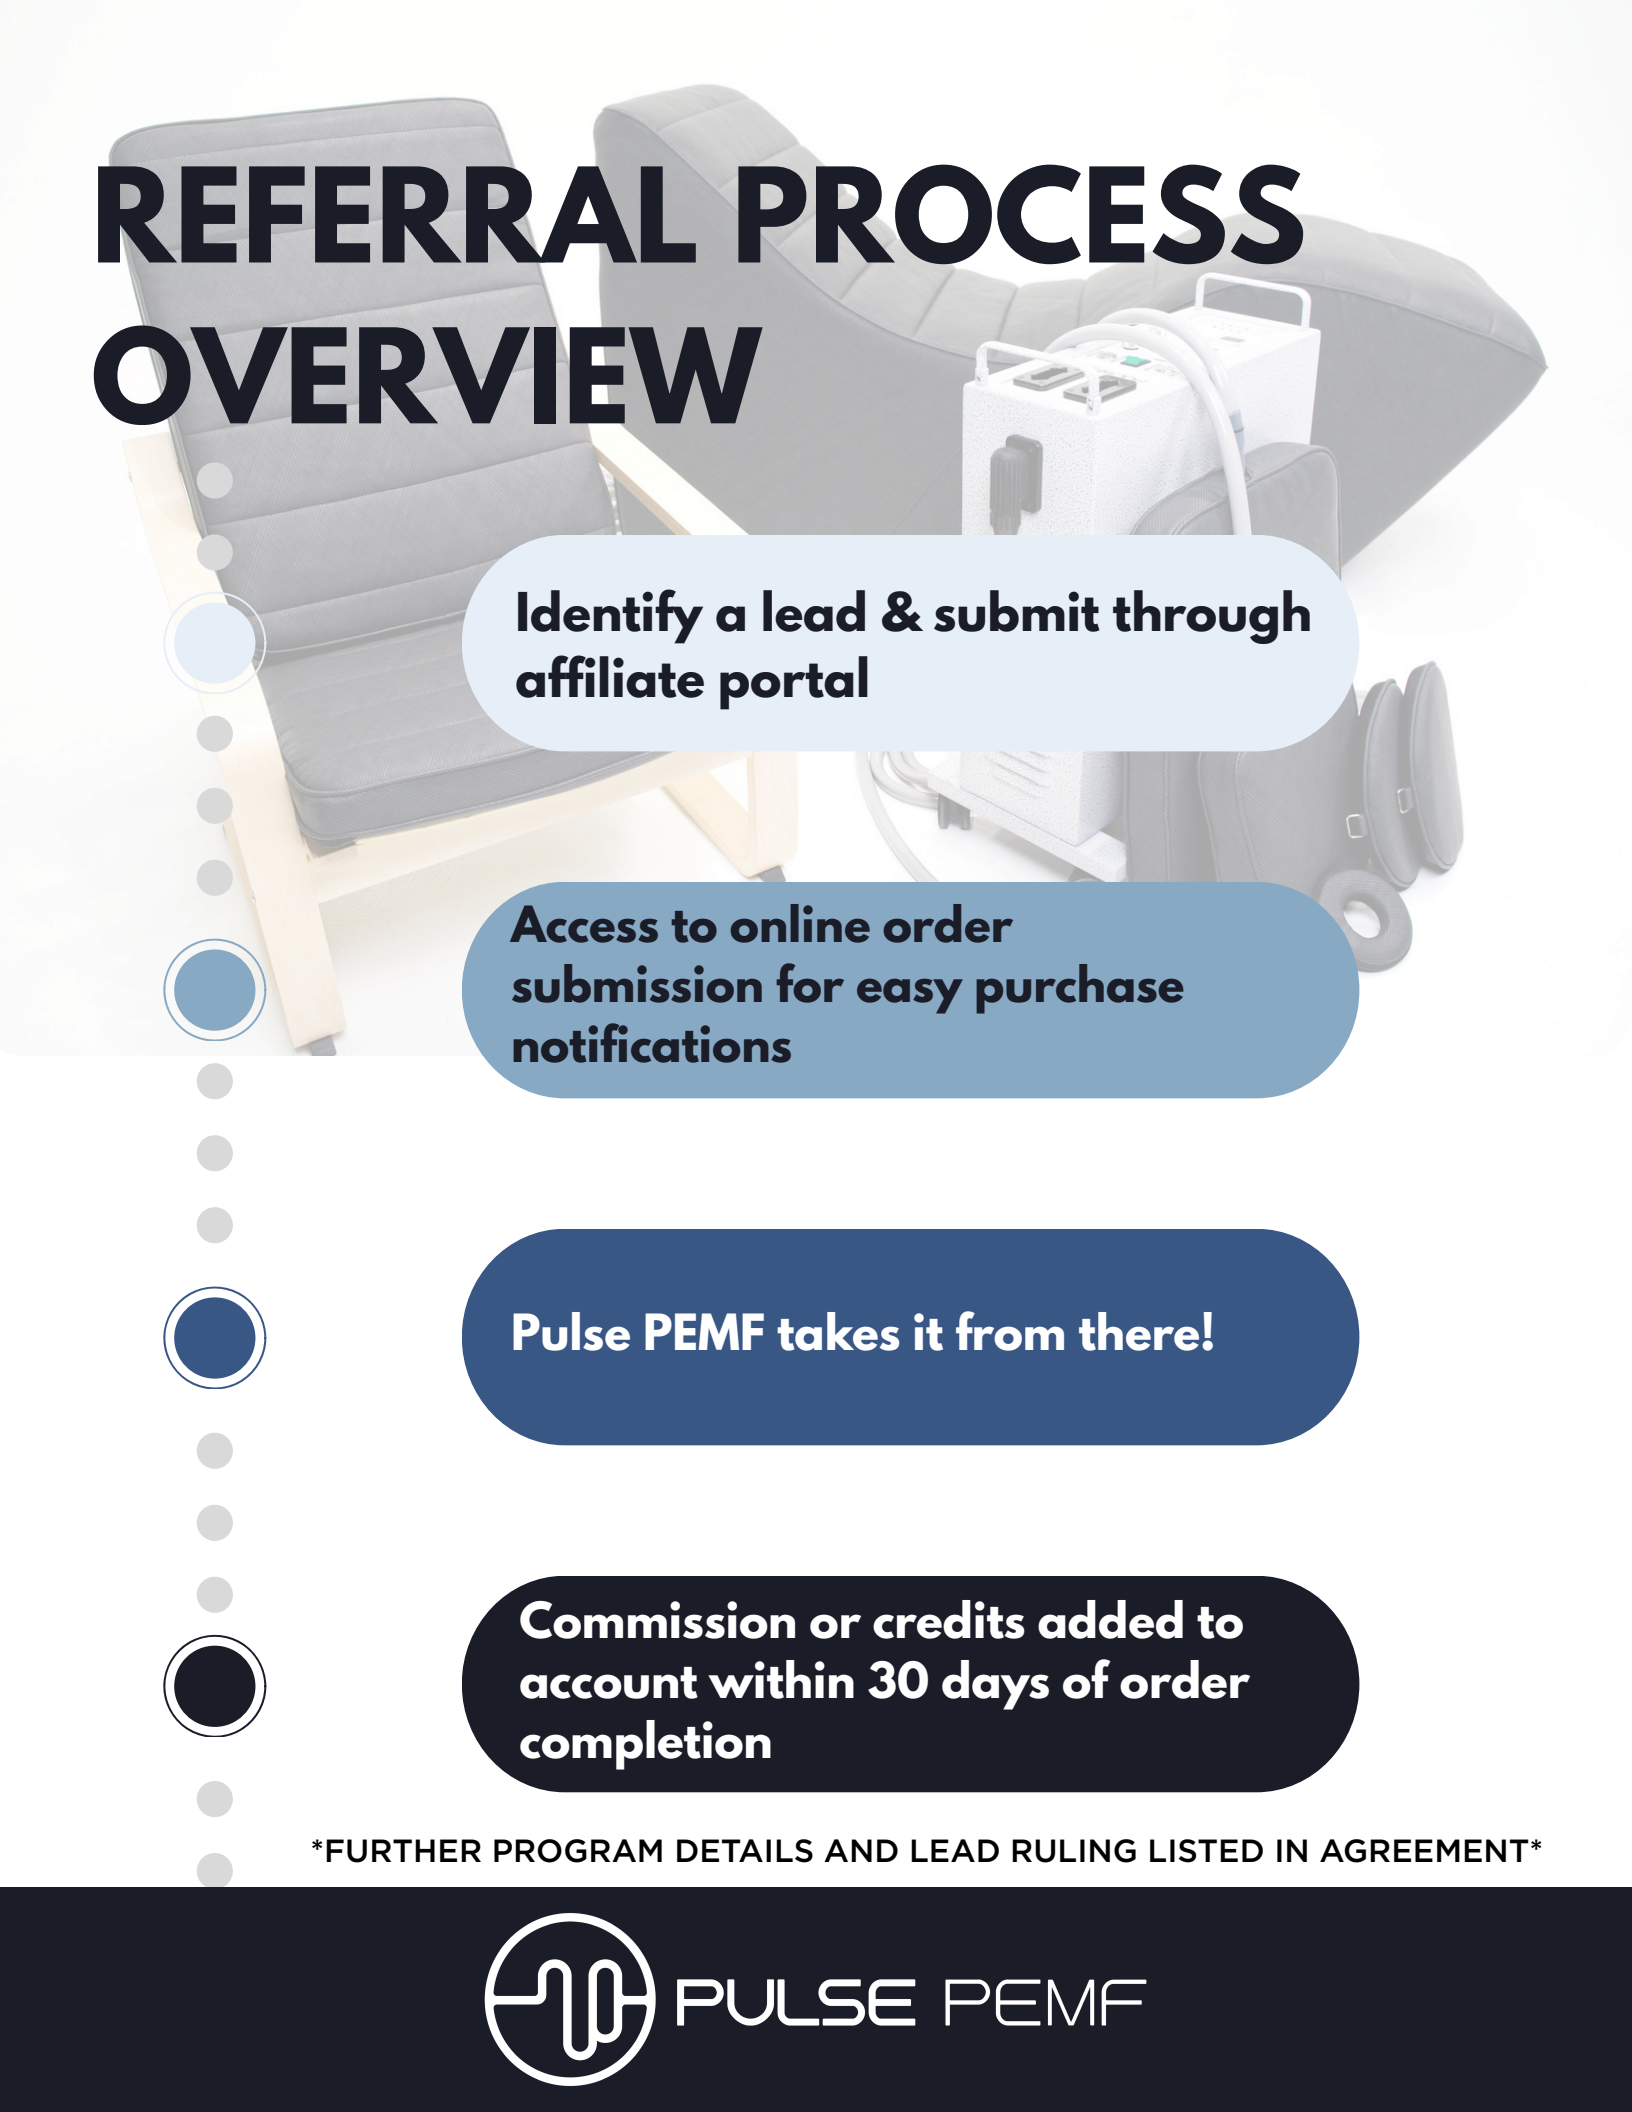

WHY PARTNER WITH PULSE PEMF?

Partnering with Pulse PEMF means aligning with a company driven by a clear mission: to enhance all life. Pulse PEMF delivers advanced pulsed electromagnetic field technology designed to help wellness professionals, trainers, and equine specialists expand their services and achieve meaningful, measurable results. At the center of the system is a coordinated set of PEMF machines and accessories that function as an integrated operating system for recovery and performance, enabling consistent sessions across both human and equine applications—from athletic recovery and performance optimization to general wellness and equine care.

Beyond the technology, Pulse PEMF is committed to long-term partner success through education, training, and ongoing support. Rather than simply supplying equipment, the focus is on building strong, lasting relationships that help businesses grow with confidence and consistency. Partners gain access to resources and guidance that strengthen both clinical and commercial outcomes, while maintaining high standards of professionalism and credibility. Pulse PEMF offers a partnership grounded in innovation, integrity, and a shared commitment to enhancing recovery, performance, and quality of life across all forms of life.

REFERRAL PROCESS OVERVIEW

The background of the slide features a light gray massage chair on the left and a white PEMF (Pulsed Electromagnetic Field) device with various cables and sensors on the right. The device is connected to the chair. The overall aesthetic is clean and professional, with a focus on the equipment used in the referral process.

CUSTOMER TESTIMONIALS AND SUCCESS STORIES

At Pulse PEMF, we are committed to delivering the best in class PEMF technology and exceptional service to our clients. Don't just take our word for it, hear what our satisfied customers & partners say about their experience with us.

The Pulse PEMF systems are, bar none, the most powerful and effective form of pulsed electromagnetic field therapy I've ever used. Whether I need to get rid of a nagging ache, pain or injury fast; shift my body into a deep state of relaxation; lay on a mat or bed for a massage or relaxation session; or stimulate my cells pre-workout, I know that I'm getting the highest power I can get from any PEMF option on the market, period. Pulse PEMF is a true game changer.

Ben Greenfield, Triathlete & Personal Trainer

The Pulse PEMF has become a daily part of my routine. It not only helps me understand what areas of my body are actually needing more targeted recovery, but helps to be a GPS for me to understand how I can best recover, to be able to come back stronger the next day and prevent illness and injury. Since using the pulse, not only has my resiliency increased, but my ability to push myself to the gym, my ability to sleep well and have long sustainable energy has just been maximized. This is a tool that I will constantly have incorporated with the rest of our client base. When it comes to PEMF, Pulse is the only product I like to recommend.

Justin Roethlingshoefer, Author & Coach

OUR MACHINES & ACCESSORIES

Pulse PEMF machines and accessories are designed to deliver advanced pulsed electromagnetic field technology with a focus on performance, reliability, and ease of use. Every Pulse PEMF system is proudly manufactured in Cartersville, GA, reinforcing our commitment to American-made quality, precision engineering, and dependable customer support.

Our technology is built with both professionals and wellness-focused individuals in mind, offering powerful PEMF solutions alongside accessories that enhance comfort, versatility, and overall user experience. By keeping manufacturing in the United States, Pulse PEMF maintains strict quality standards, faster innovation, and hands-on oversight throughout the production process.

From full-system set ups to essential accessories, each product is crafted to support consistent performance, long-term durability, and confidence in every session. When you partner with Pulse PEMF, you help advance our mission to enhance life for people, animals, and the world around us.

STACKING PEMF

Pulse PEMF can be combined with a variety of wellness and recovery modalities to support relaxation, circulation, recovery, and overall performance. These are some of the modalities that pair well with PEMF as part of a broader recovery and wellness routine designed to support the body's natural restorative processes.

Red Light Therapy

Use before or during redlight sessions to support recovery and cellular function.

Infrared Sauna

Use before or after sauna sessions to complement relaxation and circulation.

Cryotherapy

Use after cryotherapy to promote relaxation and recovery.

Exercise

Use before workouts for preparation or after training for recovery.

Massage

Use before or after massage to help relax muscles and support recovery.

Cold Plunge

Use after cold exposure to help the body recover and reset.

Chiropractic

Use before adjustments to loosen muscles and promote relaxation.

Compression

Use during or after compression sessions to support recovery and increased circulation.

OUR PARTNERS

STAYING CONNECTED

Let's Power the Future of Wellness Together!

We are incredibly excited about the potential of partnering with you. At Pulse PEMF, we don't just offer PEMF technology; we lead a movement in cellular wellness. As a Pulse PEMF partner, you aren't just an affiliate—you're a vital advocate helping us bring life-changing PEMF technology to the world.
